Ref.- Board's Ref.No.E. 2853/39.1 dated 1st June 1939. not sent -

There are eight fuel coupes measuring about 750 acres to be surveyed and demarcated. As laid down in para 10(e) of B.S.O. 195 A, the coupe lines have to be cut and areas demarcated and measured before the coupes are sold. Without survey there may be illicit felling by the contractors themselves in the areas not sold and consequently litigation may arise. Coupe lines are generally long and have to be cut in fairly thick forest. The coupe areas cannot therefore be surveyed and demarcated by ordinary chain survey; and a Special Deputy Surveyor is necessary.
